Few things are more important in today’s digital environment than the online presence of your business. Your website is the face of your business. It creates a first impression and helps customers decide if they feel welcome and want to come back.

The right design improves customer experience, builds trust and increases lead generation.
Enhance Online Presence

Your business has an online presence. But that presence can become muddled without the proper attention, costing you business. OneList Plus can help you cut through the chaos and maintain consistent info on Google, Bing, Facebook and more.

OneList Plus can help you hold onto the 73% of consumers who lose trust in brands due to inaccurate local business listings.

How does my business show on local directories?

Checks are still a fundamental way to make and accept payments. We offer two levels of check security that can fit the needs of your business. Premium secure offers the most security features but we are so confident in our checks that we’ve included EZShield® Premium Check Fraud Protection with all our checks.

Our multicolor, dimensional foil hologram makes it impossible to copy or scan.

EZShield Premium Basic Terms and Conditions
Premium and Standard secure checks from Safeguard come with check fraud protection. This service assists you in the event of counterfeit checks, forged signatures, forged endorsements or altered checks. This service is included in the price of the check and is valid up to two years or the life of the checks, whichever occurs first. The total check cost varies by check type and configuration.

The guarantee is conditional on receiving all of the necessary documents and information as requested by EZShield, and such check fraud qualifying as reimbursable check fraud event under the Uniform Commercial Code (UCC). For more details on the service go to GoSafeguard.EZShield.com.
The life of a check has many potential areas of vulnerability for theft or fraud. Our system well, safeguards those areas of vulnerability, from the time they are ordered to the time they are delivered.

Checks are the most-often targeted and account for the largest loss due to fraud.

Visit the Learn & Grow section on GoSafeguard.com to use our fraud analysis tool to determine your level of risk for check fraud.
Designed for ease of use, laser checks can be quickly printed from any office printer and are compatible with all accounting software. Ask your advisor about affordable, brand building custom checks.

Get noticed and be remembered by adding your logo or company colors.

All trademarks are the property of their respective owners. Check images are subject to change as we continue to enhance our manufacturing and security technologies.
Business Checks

Need a manual check format? You’re in the right place. Our portable varieties conveniently supplement your computer checks. Find the right format for your business.

WARNING: Check binders, covers and boards can expose you to chemicals including DINP and/or DEHP, which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Checks may look slightly different due to our continual advancements in High Security technology.
Emailable Checks

With our innovative payment system you can:

- safely send payments in a remote, contactless environment
- simplify your life by saving time on processing and mailing
- control cash flow with the power to pay in seconds
- secure faster payments without disrupting your current AP processes

Here’s how they work:

**Issue Check**
Sender logs in and fills out a check. Only recipient’s email is needed for delivery.

**Receive Check**
Recipient retrieves check from secure, online system.

**Print Check**
Recipient simply verifies and prints check.

**Cash Check**
Recipient cashes check at any bank, just like a paper check.
